

NEW BOOK PROPOSES A BOLD NEW APPROACH FOR THE PRO-LIFE MOVEMENT

Author Roland C. Warren, head of a major pro-life ministry, calls on Christians to become pro abundant life in their fight against abortion.

(Lansdowne, VA) — Roland C. Warren, president and CEO of Care Net, has authored a new book, *The Alternative to Abortion: Why We Must be Pro Abundant Life*, which challenges pro-life Christians to embrace a new vision for how to win the fight against abortion in America.

After the overturning of *Roe v. Wade* in June of 2022, many pro-life Americans — especially Christians — began asking, “Now what?” In the more than two years that have passed since that momentous Supreme Court decision, the pro-life movement has provided a variety of answers. But as these (sometimes conflicting) answers have been tested and debated, Americans, when given the option, have chosen more abortions and more pro-choice laws, not fewer.

Against this backdrop and with a presidential election looming, Warren lays out a comprehensive and biblically based approach to address the abortion issue in his thought-provoking book. In it, Warren weaves together his personal story, timeless Biblical truths, American history, and the latest social science to make a clear and compelling case for a pro abundant life approach.

Warren’s journey towards this paradigm shift began during his Princeton University college years when he and his then-girlfriend, now wife of over four decades, faced the daunting decision of abortion or choosing life for their unborn child. They chose life, and that is when Roland’s 40-year journey to this book began.

Upon joining Care Net in 2012, Warren recognized the link between abortion rates and the erosion of marriage, father involvement, and discipleship. He realized, with a “download from God,” that the Bible itself held all of the answers on how the pro-life movement must move forward.

That is when the idea of becoming pro abundant life was born.

“As I read the words of John 10:10, I understood that Christians must be pro abundant life because Jesus himself was. And as I began to unpack how this revelation would play out in reality, God began

revealing to me the not-so-secret pro-life strategies nested in some of the most popular Bible stories and verses,” said Warren.

In *The Alternative to Abortion*, readers will learn how the story of Christ’s birth, the story of the Good Samaritan, and Jesus’ teachings on the Great Commandment and the Great Commission tell us everything we need to know about how to win the fight against abortion. Most importantly, the book acts as a clarion call to the Church to rethink how it views abortion – not primarily as a political issue, but as a discipleship issue at the heart of the Church’s very purpose for existence.

The Alternative to Abortion will take readers through a compelling explanation of what it means to be pro abundant life, why it matters, and what it means for the future of pro-life ministry –from the big picture vision down to the everyday tactics that can be employed to save unborn children from abortion, build strong families, and make disciples for Jesus Christ.

The Alternative to Abortion: Why We Must be Pro Abundant Life will be released on October 1, 2024, and will be available on amazon.com and at rolandwarren.com.

AUTHOR BIO:

Roland C. Warren is an accomplished author and serves as president and CEO of Care Net. His two books, *Bad Dads of the Bible: 8 Mistakes Every Good Dad Can Avoid* (Zondervan) and *Raising Sons of Promise: A Guide to Single Mothers of Boys* (InterVarsity Press), have helped fathers and mothers apply biblical principles to their parenting journeys.

His background in the corporate world, his extensive experience in nonprofit management, and his deep faith and understanding of Scripture enable him to lead Care Net’s efforts to transform people with the Gospel, empowering women and men to choose life for their unborn children and abundant life for their families.

An alumnus of Princeton University, Roland received an MBA from the Wharton School at the University of Pennsylvania and went on to hold positions for more than four decades at IBM, PepsiCo, Goldman Sachs, Princeton University, and National Fatherhood Initiative. Roland is also a sought-after speaker at national pro-life conferences and events, pregnancy center events, church and pastoral events, and in the national media.

Roland is married to Dr. Yvette Lopez-Warren. They have two married sons and four adorable grandchildren.
