

PRAISE FOR THE BOOK

THE ALTERNATIVE TO ABORTION:

WHY WE MUST BE PRO ABUNDANT LIFE

Can the battle for LIFE in the womb still be won in America? Yes! As a lifelong defender of LIFE in the womb, and as an OB/GYN for over 25 years, I have gained new understanding, wisdom, and tools on how this battle can, and must be won. Roland does not just share his feelings and thoughts; he shares true data from large scale national surveys, interviews, and doctrinally sound biblical principles that everyone can apply to successfully defend the Image of God in the womb. Roland blends stories of Adam and Eve; Joseph and the Angel, personal experiences, Biblical principles and the Gospel perfectly. This treatise is an excellent guide on how we can have victory and experience national Pro Abundant Life! A must read for the Church!

Dr. William Lile, D.O., FACOG, Founder ProLifeDoc.org

In his book *The Alternative to Abortion: Why We Must Be Pro Abundant Life* Roland Warren kindly and carefully lays out a case for not only the value of life, but the call of Jesus Christ to a purposeful and fulfilling life for all. In an engaging and common sense way, Roland helps us view this topic through a unique, fresh lens. His perspective is not only refreshing, it is extremely instructional, and truly inspiring. He is an astute thinker, and a clear and very effective communicator. It's a book worthy of your time!

Dale O'Shields, Senior Pastor, Church of the Redeemer, Gaithersburg, MD

As the limits of political solutions to the abortion crisis become clear, Roland Warren's book provides the alternative that pro-life Americans, especially Christians, have been searching for. As a pastor whose purpose is to make disciples for Jesus Christ, I am confident that this book is the breath of fresh air that the pro-life movement needs to direct much-needed attention to the Church as the way to finally win our battle against abortion.

Rev. Samuel Rodriguez, Lead Pastor, New Season Church, President, National Hispanic Christian Leadership Conference.

This is a critical moment in the defense of innocent pre-born lives. What lies ahead is the hard, long-term work to shape hearts and minds, to influence our neighbors at the worldview level. Roland Warren provides a game plan here, one that holds together truth and love, clear on not only what we must oppose but what we must champion. It's time to roll up our sleeves and get to work.

John Stonestreet, President of the Colson Center and Host of BreakPoint

My good friend Roland Warren has given us a powerful tool for both understanding and implementing a pro abundant life agenda that not only seeks to protect the physical life of the unborn but also the spiritual life, restoration, and development for mother, father and child. This book is a must-read for those who want to obey Christ in fulfilling the Great Commandment and Great Commission for the strengthening of the family and equipping the church in addressing those facing the challenge of an unplanned pregnancy.

Dr. Tony Evans, *President, The Urban Alternative, Senior Pastor, Oak Cliff Bible Fellowship*

This extraordinary book is about so much more than a particular decision made at a point in time. Warren's call to be pro abundant life restarts and resets the conversation about abortion. It is not primarily a political concern. It is a discipleship call that encompasses life, marriage, family, cultural assumptions, social commitments, and the very mission of the church. Rooted in Scripture and richly illustrated with stories to make sense of the statistics, this book is an essential resource for situating the specific issue of abortion within the expansive context of the abundant life that Jesus offers the church and the world.

Walter Kim, *President of the National Association of Evangelicals*

In this book Roland Warren presents a plan that is engaging, refreshing and compelling based on facts, life experience and most importantly, scripture. I pray this book will be read by thousands of pro-life and pro-choice proponents motivating us to work as never before for a culture of life.

Sylvia Slifko, *ICU Mobile founder*

Roland brings needed clarity and new insights to a complex issue. His complete understanding of why men and women choose abortion will stir you to pray and act differently. Because Roland understands the problems that lead to abortion decisions, his solutions and recommendations will work. His use of Scripture, careful use of vocabulary, and challenge to us to do the same make this a strong book. Read it and follow through. Buy one for your pastor and Christian school administrators. Roland includes realistic ideas we can all implement. We must take this book seriously!

Kathy Koch, PhD, *Founder, Celebrate Kids, Inc., and the author of Five to Thrive & Resilient Kids*
